## eEnglish@eClass

eEnglish@eClass, a collaborative effort by eClass and CECEs, is an eLearning platform for students in key stage 2 to study English in an integrated and interactive approach. Each unit is specially designed by experienced CECEs educators and based on the CDC Curriculum Guide. eEnglish includes a wide range of text types and interactive activities, which aims to enrich students' learning experience, as well as to arouse their interest in English learning. Incorporating eClass expertise & CECEs LLELP (KS2) curriculum, teachers can make use of eEnglish as their teaching materials to develop and organize a comprehensive and integrated school-based English language curriculum. Feedback on particular learning tasks can also be provided, catering the learning diversity of students.
